- github : <https://github.com/mohsenxad>
- linkedin : <https://www.linkedin.com/in/mohsen-xad-5a127a109/>
- youtube : <https://www.youtube.com/channel/UCAwr0mzAkhkxn1rwX1d0ZFg>

## Skills

- **Programming**
  - nodeJS/JavaScript
  - nodeJS/TypeScript
  - Cordova/JavaScript
  - C#
- **DevOps**

- AmazonAWS
- AmazonS3
- Redis
- Realm
- Docker
- Nginx
- MQTT
- TelegramBotApi

- **Database**

- MongoDB
  - Postgres

## Activity

- **TeamLead @ Flastio (2020-2022)**

I use **Realm** serveless platform within **MongoDB** Atlass database for back-end in **JavaScript/Nodejs** and **Angular** for front-end that hosted in **cloudflare** pages.I use **Amazon S3** for Object Storage in this project.

- **Back-end Developer @ Hushyaar (2020-2022)**

I use **JavaScript/Nodejs** with **MongoDB** database for back-end with **MQTT Broker** and **Redis** and **Angular** for front-end that Deployed on VPS. This project was an **IOT** solution with hardware design.

- **TeamLead @ FleksWork (2018-2020)**

I use **JavaScript/Nodejs** with **MongoDB** database for back-end and deploy on **amazonAWS** servers. I publish IOS/Android Application on itune and googlePlay with **Cordova**.

- **TeamLead @ XCHANG (2019-2020)**

I use **JavaScript/Nodejs** with **MongoDB** database for back-end and deploy **EC2** vps with **Nginx**. we use **VueJS** for Customer Panel and **TelegramBotApi** for messageing between companies.

- **Developer @ Fecharge (2018-2020)**

I use **JavaScript/Nodejs** with **MongoDB** database for back-end and deploy on **Cloudflare** Worker and **Angular** for front-end. I publish IOS/Android Application on itune and googlePlay with **Cordova**.

- **Developer @ Rayanmehr (2015-2018)**

I use **C#** for developing webApi for Mobile Operators.
